Development Fundamentals & Tools: LWC • Foundational Apex, SOQL & SOSL • Git • VS Code • Copado Fundamentals

Business & Professional: Business Process Understanding • Stakeholder Coordination • Technical Mentoring & Communication • Analytical Thinking • Problem-Solving • Attention to Detail • Self-Directed Learning

CERTIFICATIONS

- **Salesforce:** Platform Administrator (2026) - Scored 100% in Automation & Service/Support, 90% in Data & Analytics
- **Copado:** Fundamentals I | Fundamentals II SFP | AI | Robotic Testing (2026)
- **Trailhead Credentials:** 12 Salesforce Superbadges | Double Star Ranger | Agentblazer Innovator (2026)

SALESFORCE EXPERIENCE

Salesforce Administrator & Developer Trainee | SURE TRUST - Apprenticeship

Aug '26 - present

- Participating in a six-month Salesforce Administration and Development program structured around platform administration, programmatic development, and an end-to-end implementation project.
- Developing hands-on administration skills through assignments in data modeling, platform configuration, security, data management, Flow Builder, approval processes, reports, and dashboards.

Salesforce Developer Trainee | TrailGuild, India

Jun '26 – Aug'26

- Configured custom objects, fields, page layouts, record types, validation rules, profiles, permission sets, sharing rules, and organization-wide defaults for a declarative distribution management solution.
- Automated sales, inventory, order, and approval processes with record-triggered and scheduled flows and created reports and dashboards to monitor business performance.

Salesforce Developer Intern | Anusri Talent Solutions

Feb '26 – Jul'26

- Completed hands-on Salesforce administration assignments using Flow Builder and validation rules; earned the Flow Fundamentals, Flow Administration, and Flow Optimization Superbadges by configuring flow logic, managing flow versions and settings, and optimizing automation for scalability and user experience.
- Earned the Approval Process Troubleshooting Superbadge by troubleshooting approval requests, approval steps, assigned and delegated approvers, and queue configurations.

SALESFORCE PROJECTS

Soft Drink Distribution Management System (The Agentforce In Action Challenge) | Aug'26

- Built an original, declarative Salesforce solution automating distributor onboarding, inventory tracking, approvals, and order management with custom data models, security controls, flows, and dashboards.
- Implemented an Agentforce service agent grounded in CRM record data and delivered a demonstration covering architecture, agent configuration, and business impact. [\[LinkedIn Project Demo\]](#)

Dynamic Health Metric Application (BMI) | Lightning Web Component | Aug'26

- Built and deployed an interactive LWC on Salesforce Experience Cloud to accept user inputs and dynamically calculate BMI metrics using JavaScript, HTML, and CSS
- Implemented client-side logic to dynamically evaluate thresholds and render categorized health feedback with responsive UI styling. [\[Live App\]](#)

Real-Time Currency Conversion Application | Lightning Web Component | Aug'26

- Built an interactive LWC deployed on Salesforce Experience Cloud (LWR), integrating external REST endpoints (ExchangeRate-API) for real-time currency conversions.
- Implemented custom event handling, two-way data binding, and input validation to deliver instant, asynchronous calculation feedback. [\[Live App\]](#)

ADDITIONAL EXPERIENCE

Customer Service Assistant | Family-Owned Garments Shop (Part-Time) Jan'17–Jan'26

- Assisted customers in identifying suitable products by understanding their needs, preferences, and purchasing concerns.
- Recommended a promotional product-bundling approach designed to increase perceived customer value while protecting the overall transaction margin.

Academic Mentor | Chegg India Jul'16 – Aug'16

- Provided personalized one-to-one mentoring in engineering and technical subjects by identifying students' learning needs and adapting guidance accordingly.
- Explained complex technical concepts clearly through patient communication and structured instruction.

Civil Engineer | Government of Madhya Pradesh, Public Works Department Aug'13–Oct'14

- Supervised construction activities for a government police housing project and coordinated with contractors to maintain quality standards and project timelines.
- Collaborated with contractors and project stakeholders to support daily operations and address execution requirements.

PROFESSIONAL DEVELOPMENT

UPSC Civil Services Examination Preparation | Independent Jul '15 - May'26

- Competed among **500,000+ candidates** nationwide, qualifying through the Preliminary stage 4 times (top **2–3%**) and clearing the 9-paper written Main Examination twice to advance to the final Personality Test (Interview) board (top **0.2%**), demonstrating elite analytical reasoning, structured synthesis, and sustained discipline.
- Developed analytical reasoning, structured writing, disciplined research, communication, self-directed learning, and long-term goal management through rigorous preparation.

Indian Engineering Services Examination Preparation | MADE EASY Education, Delhi Aug '15 - Dec'16

- Completed structured preparation in advanced engineering and technical concepts, strengthening analytical reasoning, problem-solving, and attention to detail.

EDUCATION

• Bachelor of Civil Engineering | ITM University, Gwalior, India Jun '13
